Terms and Conditions - Commercial Outdoor Lighting and Occupancy Sensor Incentives

Program Offer: The Program covers products purchased and/or services rendered on or after **January 1, 2024**.

Program Requirements:

1. LED fixtures must be either ENERGY STAR or DesignLights Consortium qualified products and listed on their respective websites.
2. LED fixtures include hard-wired fixtures.
3. Replacement fixtures must have a lower wattage than the original fixture.
4. A copy of sales invoice must be provided to the Utility. For retrofit applications, proof of purchase must be provided for the necessary number of lamps as indicated by the fixture type on the rebate form.
5. If applicant intends to install equipment at more than one location served by the Utility, separate forms must be completed for each location.
6. TOTAL REBATE SHALL NOT EXCEED 50% OF INSTALLED COSTS.
7. A MAXIMUM REBATE payment from the Utility may be applied to your rebate request. For projects where you expect the incentive to exceed \$5,000, contact the Utility for pre-approval prior to installing.
8. Outdoor lighting must be on from dusk to dawn and controlled by an automatic photocell sensor (cannot be wired to a motion sensor or manual switch).

ENERGY STAR Verification:

ENERGY STAR qualification can be verified by one of the following:

1. Provide cutout of package showing ENERGY STAR logo, product type and model.
2. Provide cutout of UPC symbol and model number from product package and a printout from the ENERGY STAR website confirming that model's qualification.
3. Provide model number of product and qualification will be determined by the Utility. ENERGY STAR listings can be found at: www.energystar.gov.

DesignLights Consortium (DLC) Qualification:

To determine if a product is qualified through the DesignLights Consortium, search the DLC Qualified Product List for the specific model number at www.designlights.org. Customer should provide a printout to the Utility showing their product from this listing.

General Terms and Conditions

Rebates shall be pro-rated based on the percent of power supplied by the utility if the customer has distributed generation.

Application Information: Missing or incorrect information on the application may delay processing and delivery of the rebate. An invoice is required and should include specific product information, including the brand, model, serial number and date of purchase of the energy efficient measures. Other information including manufacturer's equipment performance sheets may be required upon request.

The Utility reserves the right to verify sales transactions and to have reasonable access to the Customer's facility to inspect pre-existing equipment (if applicable) and energy efficient measures installed under this program.

Warranty Information: The Utility makes no warranties, expressed or implied, with respect to equipment operation, material, workmanship or manufacturing. The Utility does not guarantee that a certain level of energy or cost savings will result from the use of products covered by this program.

Limitation of Liability: The Utility's liability in connection with this program is limited to paying the rebate specified when all terms and conditions have been satisfied. Under no circumstances shall the Utility be liable for any consequential or incidental damages or tax liability resulting from participation in this program.

Participant Certification: Participating Customer certifies that he/she purchased and installed the equipment listed on their application at the defined location served by the Utility. The Customer agrees that all information provided is true and that he/she has conformed to all program requirements. If the equipment and application does not comply with the Utility's rules and qualifications, the rebate amount may be denied or adjusted.

Program Changes/Termination: The Utility reserves the right to extend, modify (including incentive levels) or terminate this Program at any time without prior or further notice. The Customer is responsible for checking with the Utility to determine whether the program has been changed or is still in effect.

Customers must apply for rebates within six (6) months of the purchase date (as shown on the Customer's invoice) and are subject to the current year program offer if received after January 31st. Past eligibility, however, does not guarantee that equipment will meet criteria for current programs in effect.

Commercial Outdoor Lighting and Occupancy Sensor Incentives

REBATE TABLE

All LED fixtures must be Energy Star qualified and /or listed on the Qualified products list published online at www.designlights.org by the DesignLights Consortium™ (DLC). Use the lighting Product Codes from these tables to complete the lighting equipment section and determine the eligible rebate amounts.

LIGHTING EQUIPEMENT	REBATE AMOUNT	PRODUCT CODES	
Occupancy Sensors	\$8	OS	
OUTDOOR LIGHTING FIXTURES	REBATE AMOUNT	PRODUCT CODES	
DLC or ENERGY STAR Qualified LED	20 to 34 Watts	\$10	LED1
	35 to 49 Watts	\$20	LED2
	50 to 74 Watts	\$40	LED3
	75 to 124 Watts	\$50	LED4
	125 Watts or more	\$60	LED5

Lighting applications over \$5000 requires per-approval.

Definition: New Construction also includes additional units that are not replacements.

** Lumens and Watts should be values found from the DLC Qualified Products List.
